PROFILE

Self-motivated web developer with considerable technical skills in both front and backend development. A quick learner able to play a key role in streamlining existing codebases writing reusable code to encourage efficient workflow. A keen eye for front end development, with a strong desire to improve my existing skillset through experience; Eager and ready to lead into the next step from intern to professional programmer.

EDUCATION

University of Texas
(2022)

FullStack Web Developer Certification

University of Texas SA
(2016-2021)

Computer Science

EXPERIENCE

Binary Chemist – Web Developer intern
(2021-2022)

At Binary Chemist I was responsible for determining the structure while designing client webpages, which includes developing new user features in reusable blocks of code. Using a variety of markup languages, I was tasked with improving existing codebases; optimizing page load times and maintaining code accuracy through jest testing.

CVS Pharmacy - Shift Supervisor
(2019-2021)

Managed store operations along with shift records, producing timely reports to keep higher management up-to-date. Documenting transactions on a day to day basis to promote inventory accuracy. Coordinated workflow and maintained employee schedules to improve efficiency while assessing team performances to encourage productivity.

PROJECTS
(2021-2022)

- TACO APP
- README GENERATOR
- WEATHER DASHBOARD
- CODE QUIZ
- NOTE TAKER
- TECH BLOG
- WORK DAY SCHEDULER
- SNAKE
- SOCIAL NETWORK API
- E-COMMERCE BACKEND
- EMPLOYEE TRACKER
- REACT PORTFOLIO
